

Copy the eWON list from a computer running eCatcher to another one.

All connections parameters are in the file
C:\Documents and Settings\--USER--\Application Data\ACTL\eCatcher2.evpn
Copy it in the same location on the Target PC.

- Note -

Only applicable for eCatcher 2.1 versions to copy the list of dial-up connections, direct VPN connections or eSync connections to an other PC.

For Talk2M connections, there is no need to copy something from one PC to the other. All the info of connected eWONs are stored on the Talk2M server.
